

Webinar

STEM Education through Arts and mini-games

In the framework of European initiative *STEM Discovery Campaign 2020*, *EU-Track Association*, in collaboration with *Institute Comprensivo “Maria Montessori”* of Terracina will organize the webinar “*STEM Education through Arts and mini-games*”.

This event is addressed to headmasters, teachers and all people interested to disseminate and promote STEM

It will be an opportunity to learn about the tools and methodology developed by the G.A.STEM project team and to know how teachers and students can participate in the testing phase planned.

15 April 2020, at 15:00
